

**Protect what matters.
Your water, perfected.**

Perfecting Water. Protecting Life.™

Improve your water and everything it touches with the science of Kinetico

A Kinetico total water care solution will completely transform the water in your home.

Enjoy pure, great-tasting water free from impurities on tap, while protecting your appliances, kitchen and bathroom from damaging limescale buildup.

Your local Kinetico dealer is here for you every step of the way, making owning a Kinetico system simple and hassle-free. Whether you need replacement filter cartridges, more salt or are in need of expert advice simply give them a call.

For the ultimate in total home water care, pair your Kinetico water softener with a Kinetico filtered drinking water system.

Start your journey, perfect the water in your home today!

The world's leading water solutions experts, and here's why...

Inventors and innovators

Over 50 years ago, we revolutionised the industry by inventing the first non-electric, twin-tank water softener, an innovation that remains the gold standard today.

Decades of trusted expertise and a superior reputation

With more than half a century of experience, Kinetico is a name you can count on. Our systems are designed to treat water efficiently, effectively, and economically. In fact, many of our customers have relied on their Kinetico systems for over 20 years.

Engineered for reliability and backed by exceptional service

Built to deliver exceptional performance and backed by industry-leading warranties, a Kinetico water system offers lasting quality and total peace of mind, with a customer care team here to support you long after your first purchase.

Trusted providers

Proud to have customers including...

SAVOY

Why is hard water a problem?

Limescale, a result of hard water, causes an untold amount of damage to your home.
Damage you can see and damage you can't.

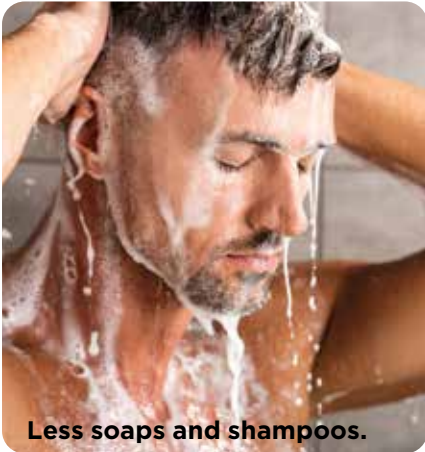

60% of the UK
suffers the daily
problems caused
by hard water

With a Kinetico Water Softener, eradicate hard water from your home and banish limescale permanently. Protect your appliances, boiler, skin and hair all whilst saving money too.

The benefits of soft water

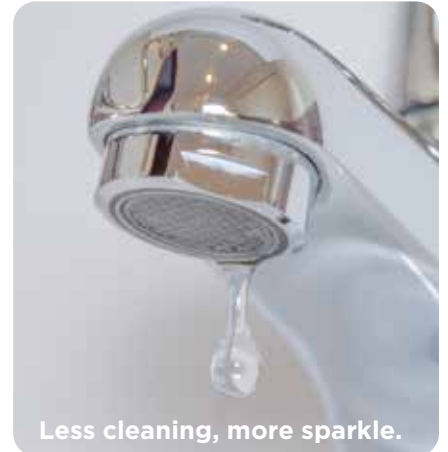

Eliminate limescale, use less cleaning products, enjoy smoother skin and silkier hair, plus so much more...

Less soaps and shampoos.

Maintained efficiency.

Less cleaning, more sparkle.

Stop hard water at the source

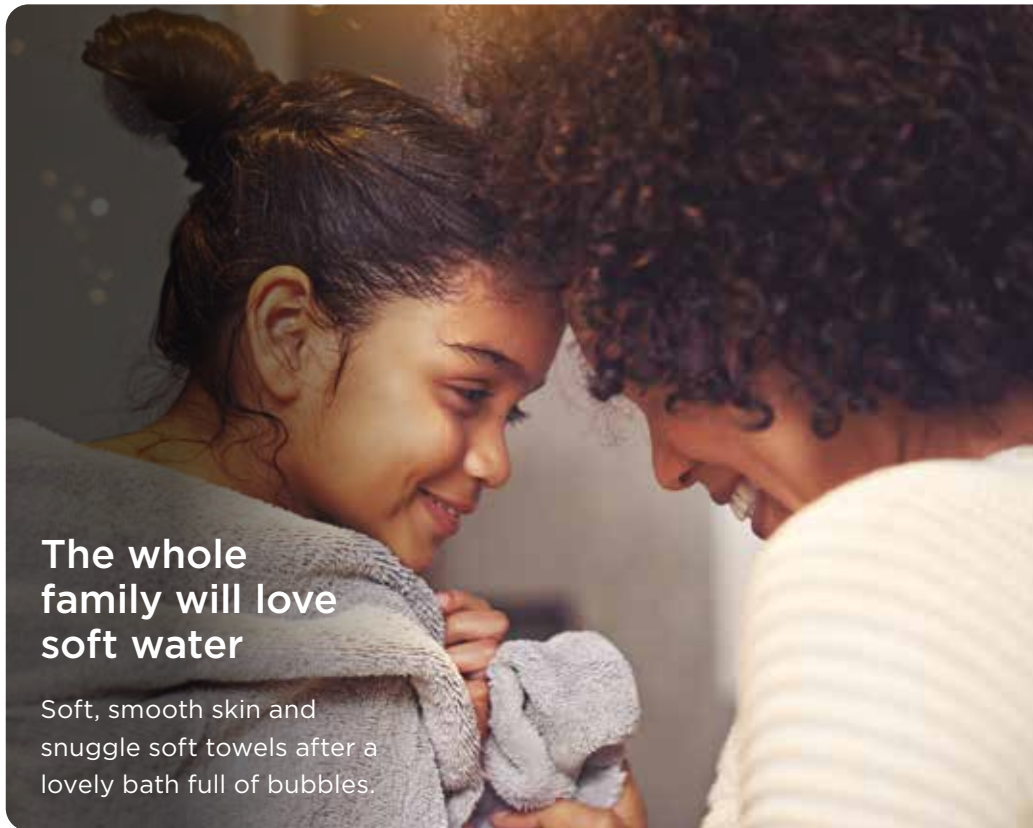

Supermarkets stock harsh cleaning products that can temporarily remove visible limescale build-up. But, only with a Kinetico Water Softener can you tackle hard water damage and remove limescale permanently at the root.

Remove limescale-causing minerals and protect your whole home with soft water.

The whole family will love soft water

Soft, smooth skin and snuggle soft towels after a lovely bath full of bubbles.

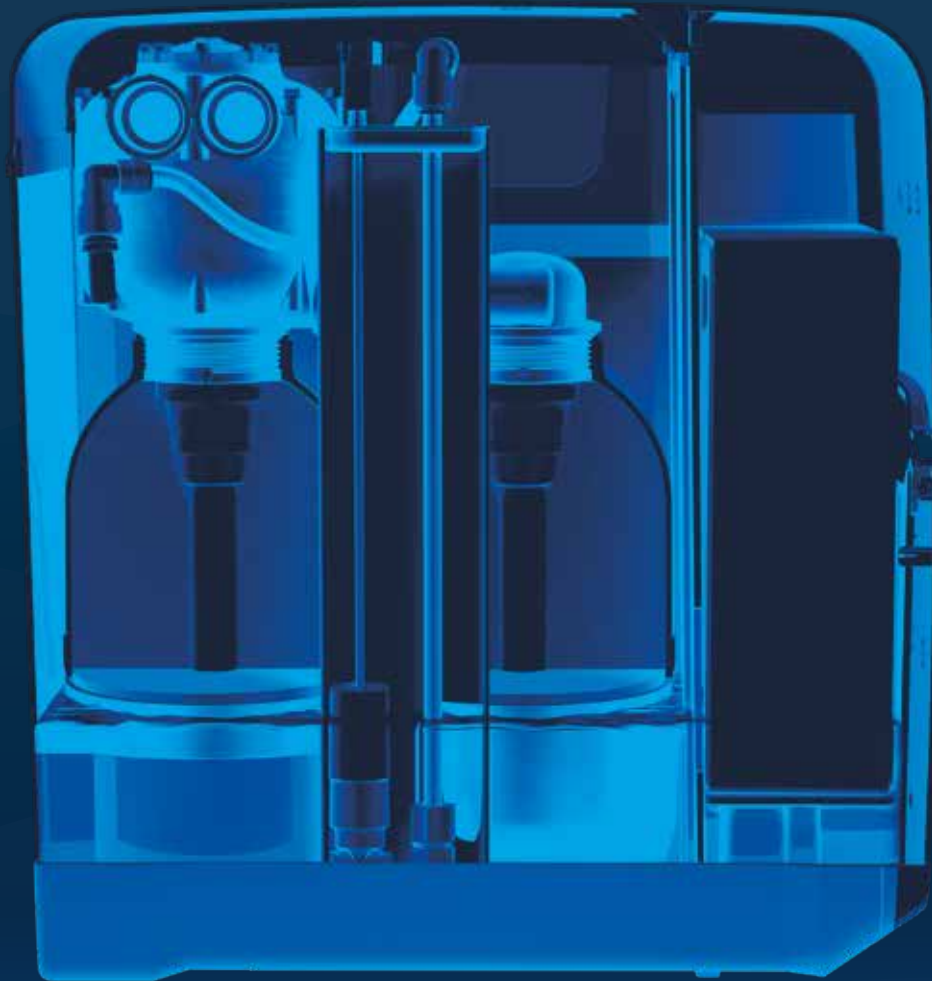

A scaled-up boiler and heating pipes use far more energy than necessary, adding a up to 12% on water energy bills.

Maintain the efficiency of your water using appliances and avoid costly breakdowns.

Pioneers in water softening technology

Kinetico invented the twin-tank, non-electric water softener over 50 years ago. Today, our engineers, experts and superior knowledge, together with a passion and commitment for our customers ensure we remain industry leaders around the world.

Highest quality standards

Engineered for lasting performance and complete peace of mind, backed by a 10-year parts warranty.

Continuous soft water

Thanks to the dual-cylinder system, enjoy guaranteed soft water, all day, every day, even during regeneration.

Non-electric water softener

Powered by water pressure, not electricity, for greater reliability and lower running costs.

Kinetico water softener range

Explore our innovative systems, designed by the experts, our Premier range of water softeners are recognised as the best in the world.

Excellent flow rates:

Built for UK homes to deliver water flow rates that exceed the most demanding households.

Highly Efficient:

With XP Extra Precision Hardness technology the water softener is calibrated to your exact location and the specific needs of your household.

eMax technology:

e-max Technology is packed with innovative features to deliver unmatched water softening performance.

Quiet drive:

Kinetico's patented, precision-engineered valve runs so quietly you'll barely notice it.

Countercurrent, metered regeneration:

Unlike other water softeners, our patented counter-current backwash regenerates from the bottom up, ensuring a more even and efficient use of the resin.

It also measures your water usage with watch-like precision regenerating only when needed – saving water, salt, and money.

	Block salt for easy loading	Block or tablet salt
Maintenance:		
Salt	1 block per person per month	4kg tablets per person per month
Service	Annually	Annually

What's in your drinking water?

H₂O, two parts hydrogen and one part oxygen, but what else could be lurking in your water supply?

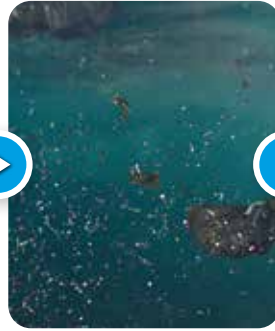

Naturally occurring **minerals** from the environment

Chlorine and chemicals added during water treatment process

Particles from pipes including **lead, rust** and limescale

Microplastics that are becoming ever present in our oceans

Pollution including **oestrogen** and **coliform bacteria**

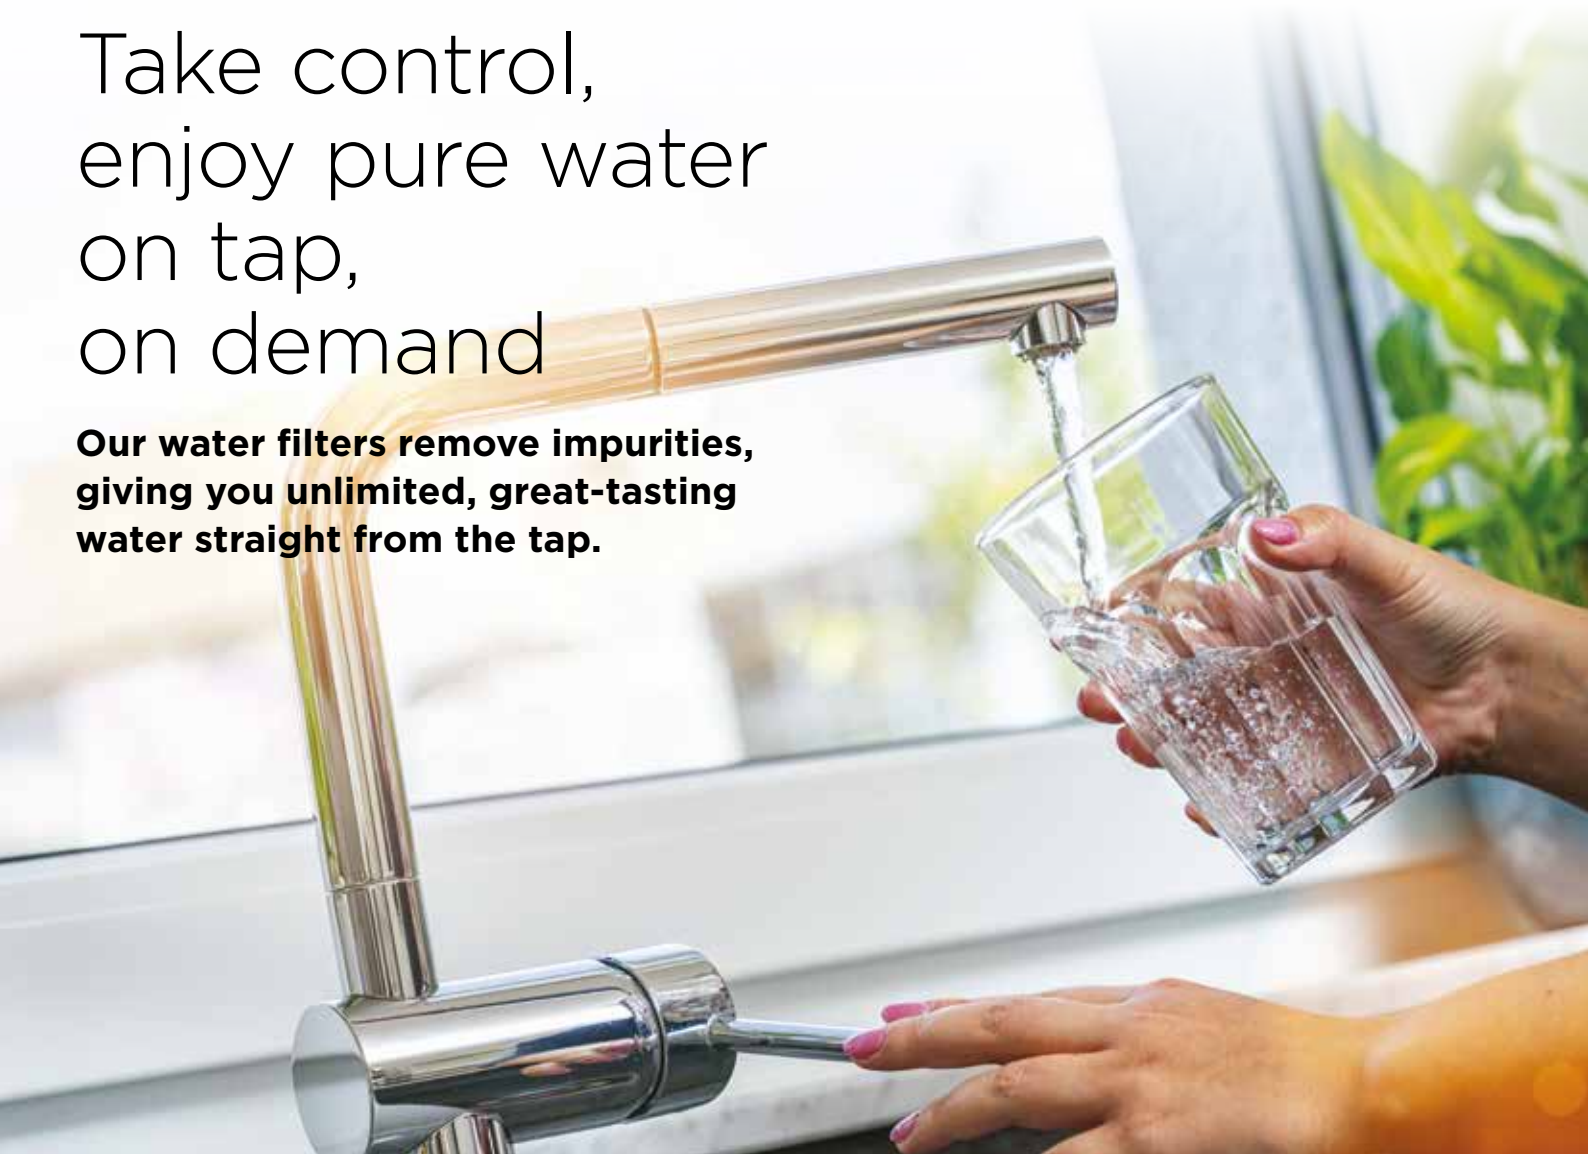

Scientists believe we each consume 5g of plastic every week

- that's the equivalent of a credit card.

Over the course of a year, that equates to 12 plastic bags, approximately 150,000 plastic particles.

Take control,
enjoy pure water
on tap,
on demand

Our water filters remove impurities, giving you unlimited, great-tasting water straight from the tap.

The benefits of filtered water

Enjoy crystal clear ice, delicious drinks, contaminant-free food prep and cooking with pure water.

**Hydration on
your terms.**

Experience ice like never before!

**Transform hot drinks into
something extraordinary.**

Unleash a world of new experiences in your kitchen

Transform the flavours of your favourite meals and drinks.

**Keep your family safe, healthy and hydrated in the best way possible,
with pure filtered water.**

A gleaming, limescale-free kettle

No more regular cleaning and scrubbing, no more flakes in your tea, just beautifully clear hot drinks and a delightfully shiny kettle, everyday.

Save money and reduce your impact on the environment

It can take up to 450 years for a plastic bottle to bio-degrade.

Plus, there'll be no more waiting around for the filter jug to be full again.

Leading the way in water filtration technology

The Kinetico K5 is the ultimate drinking water system. With advanced reverse osmosis filtration the system delivers clean, great-tasting water straight from your tap, and puts you in full control of your home's hydration.

Highest quality standards

Engineered for lasting performance and complete peace of mind, backed by a 10-year parts warranty.

Excellent water flow rate

Outperforms other reverse osmosis filter systems with unique QuickFlo® tank technology.

Non-electric water filter

Powered by water pressure, there are no electricity cables, nothing to programme and lower running costs.

Kinetico water filtration range

Our water experts design and engineer world-leading water treatment solutions.

Choose your filtration:

Carbon

Highly absorbent carbon filter attracts and adsorbs impurities from the water.

Reverse Osmosis

Traps contaminants in a semi-permeable membrane that only water can pass through.

Choose your tank:

Air Charge Tank

The flow of water will slow down over time.

Direct Flow

All in one system with constant flow of water.

QuickFlo Tank

A continuous high flow of water will be available.

Choose your features:

Auto Shut Off

System shuts off when filter cartridge needs changing.

EverClean® Rinse

Extends system life by self-cleaning in filtered water.

LEDs/PureMometer™

Indicates when to change the filter cartridge.
